### Profile

#### Summary

Skilled professional with four years of hands-on experience in JavaScript, ReactJS, HTML, CSS, Material UI, and Next.js. Demonstrated proficiency through successful delivery on multiple industry-level projects. Expertise lies in leveraging these technologies to craft robust, user-centric solutions. Adept at translating design concepts into functional, responsive interfaces.

### Professional Experience

#### Senior Software Engineer

12/2022 – present | New Delhi, India

SFLHub

##### Responsibilities :

- Delegating work and assignments to team members
- Collaborating with the team to identify and fix technical problems
- Analyzing users' needs and then finding applications to serve them

##### Projects :

##### - SFL Insights

SFL Insights is a white Label Web Application for shipment visibility, tracking, document uploads, analytics and powered by CargoWise One data.

##### • Project Role

- Led the implementation and execution of front-end design and architecture using ReactJS, emphasizing adherence to best practices.
- Played a key role in initiating the building blocks and architectural setup required for the implementation of upcoming features.
- Taking charge of extensive research and development efforts essential for the successful implementation of new features.

##### • Technologies

- **Reactjs, Redux, Redux Toolkit, axios, ChartJS, MaterialUI, Google Maps React.**

##### - Asia Shipping

Asia Shipping is a Web Application for shipment visibility, tracking, document uploads, analytics and powered by CargoWise One data.

##### • Project Role

- Elevated code stability, responsiveness, and overall performance by implementing enhancements and optimizations. Focused efforts on refining codebase for greater stability, responsiveness, and heightened performance levels.

##### • Technologies

- **Reactjs, Redux, Redux Toolkit, axios, MaterialUI, Google Maps React.**

## Software Engineer

06/2020 – 12/2022 | Bengaluru, India

*Snehix*

- Write well-designed, testable code
- Integrate software components into a fully functional software system

### Projects :

- **User Portal** [!\[\]\(815df092dd722ee9268ef8e6d0193e3a\_img.jpg\)](#)  
A web portal facilitating educators from all over to connect and collaborate, including the ability to directly upload and download handwritten notes from their devices.
- **Project Role**
  - Engineered reusable components with a focus on React for future applications, prioritizing readability and ease of implementation. Developed modular elements to ensure scalability and facilitate seamless integration for enhanced readability and reusability across projects.
- **Technologies**
  - **Reactjs, Redux, Context, axios, MaterialUI.**

## Quality Assurance Engineer

02/2020 – 06/2020 | Pune, India

*CodeMasters*

- Review requirements, specifications and technical design documents to provide timely and meaningful feedback
- Create detailed, comprehensive and well-structured test plans and test cases

## Education

### B.Tech in Computer Science and Engineering

2016 – 2019 | Chittorgarh, India

*Mewar University*

CGPA **7.41**

### Diploma in Computer Science and Engineering

2013 – 2016 | Chittorgarh, India

*Mewar University*

CGPA **6.25**

### Class X

2012 – 2013 | Chittorgarh, India

*Central Academy*

CGPA **6.00**

## Skills

Reactjs • HTML • CSS • Javascript • Nextjs • Chart.js • Redux • Redux Toolkit • Context API  
MaterialUI • React-Router-Dom • Framer Motion • Styled Component

## Projects

### Portfolio Website

Used Nextjs as framework on top of reactjs, with Material UI as UI library.

### Youtube Clone

Used MUI, react-player for video playback.
